TECHNICAL SKILLS

Programming Languages: Java, JavaScript
Frontend: HTML5, CSS3, React.js
Backend: Node.js, Express.js, RESTful APIs
Databases: MongoDB, MySQL
Tools & Platforms: Git, GitHub, Postman, Docker
Core Concepts: Data Structures and Algorithms, Object-Oriented Programming, DBMS
Soft Skills: Problem Solving, Time Management, Leadership, Adaptability

TRAINING

Geeks for Geeks (Edtech Company)	Jun' 24 – Jul' 24
- Gained hands-on experience in Data Structures and Algorithms using Java, including Arrays, Linked Lists, Trees, HashMap, Recursion, Searching, and Sorting techniques. - Solved algorithmic and coding problems focusing on time complexity optimization, debugging, and edge-case handling. - Developed a Java-based Online Banking System using Object-Oriented Programming concepts with features for account management, transactions, deposits, withdrawals, and balance management.	

PROJECTS

CodeLens - AI Code Reviewer GitHub	Jan' 26
- Built a microservices-based AI code review platform with services for authentication, reviews, workspaces, notifications, GitHub integration, and review history management. - Implemented GitHub pull request review, repository file browsing, re-review comparison, and workspace-based collaboration with role-based access control. - Utilized RabbitMQ for asynchronous job processing and Docker-based deployment for scalable service orchestration and backend communication.	
Technologies: React.js, Node.js, Express.js, MongoDB, JWT Authentication, Docker, GitHub OAuth, Grok AI API	
ResolveX - Complaint Management System GitHub	Dec' 25
- Developed a MERN-based complaint management system with JWT authentication, complaint tracking, resident management, role-based access control (RBAC), and an admin analytics dashboard. - Integrated Stripe payments, Twilio WhatsApp notifications, and secure webhook handling for rent payment workflows. - Configured Docker, Jenkins CI/CD pipeline, rate limiting, file uploads, and protected REST APIs for deployment and security.	
Technologies: MongoDB, Express.js, React.js, Node.js, JWT, Docker, GitHub Actions, Twilio API, Stripe	
Snippy - Code Sharing Platform GitHub	Mar' 25
- Created a full-stack code snippet platform with snippet creation, search, tag filtering, likes, pagination, and leaderboard features. - Integrated secure user authentication with JWT tokens, account verification, password reset functionality, and protected APIs. - Designed a Node.js and Express-based architecture with reusable components, REST API integration, and responsive UI design	
Technologies: Node.js, React.js, Tailwind CSS, Express.js, MongoDB, Mongoose, JWT	

CERTIFICATIONS

Full Stack Web Development Apna College	Dec' 25
Data Structure and Algorithms Geeks for Geeks	Jul' 24
Server-Side JavaScript Coursera	May' 24

ACHIEVEMENTS

- Solved 200+ Data Structures and Algorithms problems across diverse platforms improving problem-solving and debugging skills.
- Coordinated and hosted public speaking seminars through Converse+ Club with participation from 100+ students.

EDUCATION

Lovely Professional University	Phagwara, Punjab
Bachelor of Technology	Nov' 22 – Jul' 26
Computer Science and Engineering; CGPA: 7.6	
Little Flower House	Varanasi, Uttar Pradesh
Intermediate	Apr' 20 – May' 21
CGPA: 8.5	
Happy Model School	Varanasi, Uttar Pradesh
Matriculation	Apr' 17 – May' 18
CGPA: 8.9
